UNION HEADS ARRESTED

Hand-up Begins in Bay City

Follow Confession They Were Hired for Violence Cases

Ask Grand Jury for Indictments as Mayor Trials for Police

WICHITA, Oct. 25. (P)—Two men, Arctic Moosey, vice-president of the International Brotherhood of Teamsters and Joetha, 15th and 16th, business manager of Local Union No. 487, were held late today on charges of conspiracy and intent to commit murder.

The court, 6 to 8, held that the

President has full discretion in removing such officers, with the exception of a few judges, notwithstanding any restrictions that Congress might impose.

The decision set at rest a contro-

versy between the legislative and executive branches of the government as old as the Constitution itself.

From the first Congress up to the

present, the two departments of

the government have been at odds over power of removal of appointive of-

holders.

The question, frequently an issue

in Congress, did not reach

the court in an appeal by Frank S.

Myers, appointed by President Wilson to the postmastership at Portland, Or., in July, 1917, and subsequently

dismissed by President Harding in

February, 1923.

ROAD house gas station, 10th and 16th, was closed yesterday.

WICHITA, Oct. 25. (P)—A history-making opinion

upholding the power of the President to remove without con-

sulting the Senate, officers appointed by him with the advice and consent of that body, was handed down today by the Su-

preme Court.

The court, 6 to 8, held that the

President has full discretion in re-

moving such officers, with the excep-

tion of a few judges, notwithstanding

any restrictions that Congress might

impose.

The decision set at rest a contro-

versy between the legislative and executive branches of the government as old as the Constitution itself.

ENGLAND MAY LINK ROYAL LAND DOMINION AIR FORCES

Co-operation Considered as Part of Defense Plans Discussed at Imperial Conference

LONDON, Oct. 25. (P)—Linked with discussions of foreign policy at the imperial conference today was consideration of the question of defense, especially in the air. As a sequel to an air demonstration last Saturday, the imperial conference will consider further schemes for co-operation between the royal air force and the air forces of the various dominions. The combined strength of the various squadrons of the British air force now amounts to approximately 730 airplanes for home defense.

The primary policy of the British Air Ministry is the organization of British air power on a mobile basis. The responsibilities of the air force in distributing squadrons throughout the empire are so great that, according to the estimates of the Air Ministry, 100 per cent increase in the present number of squadrons might be necessary within a year if all requirements were fulfilled. An alternative method of satisfying the requirements is by increasing the mobility of the air squadrons so that any part of the empire may be safeguarded as circumstances dictate.

THREE POLICIES

Three main lines of policy are being followed to achieve this end as follows:

Development of the air-route bases throughout the empire.

Technical improvements which will increase the efficiency and reliability of the air craft.

Development of larger airships to carry airships and their personnel.

The Air Ministry contends that the mobility of the air force is of direct benefit to the dominions in their problems with regard to quick communication and local defense. In addition to air force, the dominions are to have a policy of the protection of air bases, airship routes and development of the air routes, they will also be contributing to their own advantage and security.

CHAIN SERVICE

There is already in existence what is described as empire chain service airships at Kalka, Egypt, Palestine, Dakar, Bombay, Madras, the air force of Great Britain also maintains close liaison with the air forces of Canada, Australia and South Africa. Great Britain on the civil side of flying is, however, establishing a trans-empire airway, starting with the 12,000 miles from London to Melbourne, Australia. The link between Cairo, Egypt, Karachi, India, will be completed. It is planned that between Cairo and Nyassa via Khartoum, thus bringing the Uganda protectorate in East Africa into close touch with other parts of the empire.

CAPE NUTTING DIES

SEATTLE, Oct. 25. (P)—Capt. Dan'l Chapman Nutting, fifth ranking member of the United States Navy, died in Everett, Wash., today at 57 years of age. He was head of the Pacific Coast Navy Board of Inspection and Survey four years.

SCIENCE TRAINS LENSES ON STAR

Mars Comes Close Tonight for Inspection

Astronomers Hope to Solve Question of Life

Visibility Better Than on Previous Visit

CHICAGO, Oct. 25. (Exclusive)—Unless the gods of the atmosphere intervene, scientists tomorrow night will have the finest opportunity of modern times to take a look at the planet Mars.

With a cloudless sky, it is hoped by Edwin P. Frost of the University of Chicago's Yerkes Observatory at Williams Bay, Wis., to get such a good view as to establish once and for all whether life exists on Mars—and whether there are humans there, and whether they have flowers and vegetables and water.

For Mars is coming close to the earth again, not so close as it came in 1924—but by one-fifth as many million miles—but in coming it will pass the earth above the celestial equator, and the heart of the southern horizon which distinguishes Mars from the stars.

When we came in sight of the earth again, it was not so close as it came in 1924—but by one-fifth as many million miles—but in coming it will pass the earth above the celestial equator, and the heart of the southern horizon which distinguishes Mars from the stars.

For Mars is coming close to the earth again, not so close as it came in 1924—but by one-fifth as many million miles—but in coming it will pass the earth above the celestial equator, and the heart of the southern horizon which distinguishes Mars from the stars.

CANTONESE GOVERNMENT EXTENDS SUBJUGATION

Nationalization Movement Spreads to Six Provinces and March Northward Continues

SAN FRANCISCO, Oct. 25. (P)—Cablegrams from China continue to recount the progressive subjugation of large sections of the huge republic by the Cantonese government, which is said to be aided by Russian gold and officers. Within a few months, by force of arms and with oriental intrigue, Cantonese control in Southeastern China has been spread, although it extends to six provinces, with threats to others.

In its campaign for so-called na-ture of the Cantonese covers \$20,077 nationalization of China, as stated by the Kuomintang (National Peoples) Party dominating it, the present tenure, however, is subject to day by day

sustention of control.

Provinces are Kiangsu, Kiangsi, Kiangnan, Kiangsu, Hsueh and Szechuan, with fighting and intrigue proceeding in all but the first two.

The huge Province of Szechuan, an area of 510,000 square miles and a population estimated at 49,782,810, is the latest to be claimed by the Cantonese. Chungking, one of its largest and most important cities, has fallen into the hands of the southern troops.

From Anoy, Fukien Province, came reports today that the governmental organization of Manchurian Sun Chuan-fang had been disintegrated by Cantonese influence and that martial law had been declared at Foochow.

Officials, supporters of the Cantonese, attacked Shanghai police yesterday with bombs and firearms, and although subdued, have created much uneasiness. They are also reported to have taken Nanjing, capital of the same.

Meanwhile, little is heard of Sun Chuan-fang and Wu Pei-fu, who are reported to be in the same position as the Central Chinese temporarily has fallen into Cantonese possession. Sun Chuan-fang's hold on Kiangsi Province is still intact, and he is still called the manager. Shows left to him and the manager called the police who found him and pursued him when he ran.

In Anhwei Province, Sun is attempting to raise a force to assist the Cantonese march toward Nanjing, his capital, and Shanghai.

Stone, police said, attempted to purchase a theater ticket here, proferring a purported gold piece. A suspect had been traced from Providence to Washington and thence to Richmond, Newport News and Norfolk.

CHICAGO, Oct. 25. (P)—In advertising the church the same principles of psychology must be used that business men employ in selling their goods. One of the best ways to do this is to have the church publicize itself.

"On general principles, it is safe to assume that the public knows nothing about the church," said Mr. Stetzel, chairman of the church advertising department of the International Advertising Association.

"In advertising the church it should be made plain that the church is not an organization, a forum, a social-service

league, a political party, nor are its preachers supposed to be economic

agents. The church is an important social, moral and religious institution, and this fact should be advertised to the world; but its supreme task is spiritual. If it fails here, it has lost out completely."

Hall has been occupying a death cell in Folsom prison since the completion of his trial more than a year ago.

CHICAGO, Oct. 25. (P)—Details of the two-year survey of Lutheran colleges to be undertaken were given the fifth biennial convention of the United Lutheran Church in America in the report of the board of education.

Dr. Robert J. Leonard and Dr. Edward S. Eveden, professors of education of the church, were appointed as joint directors of the survey.

McClinoch and Slatner seemed pleased with the day's work, and after removing McDermott from the County Jail to the County Workhouse, turned to talk to the men there.

The court held that Judge Busick's sentencing of Hall to death when the jury could not agree upon the degree of punishment resulted in a mistrial.

Donie" Bush Named New Pittsburgh Pilot

Business

See the World

foundation of factories. And until recently there has been no such technical education as could be obtained in older sections.

But there have been advantages, too. The mines and oil wells are here. Mother Earth has run a college for the native brains of the West. Say "oil" or "mining" in the East, and people draw away from you suspiciously. You may be honest, but must be selling stock, or queer. Here young fellows grow up with the real thing — grow up with the real camping, riding, prospecting, hunting, getting a training for service with the industrial marines sent out by manufacturers of such apparatus.

These plants employ the young fellow with college training, and the last who stops short at high school, or even commercial school, but has a liker for tools and mechanical things.

He is up-and-coming, part of his training is likely to be design travel. For such business must grow upon the knowledge of its men. The young fellows starting in today will be department heads, general managers, presidents, and in some cases manufacturers themselves, in ten or fifteen years, and the business will be bigger. It is not enough to erect an absorption unit for the customer in a far land; you must know what the customer thinks, how his country looks, what he is up against, what developments are necessary to meet his conditions. It is for the young fellows are sent up, and ten years hence their experiences will be valuable.

Occasionally you run across a young fellow, nowadays, who has none of this in his blood. I remember one who quit the Florida excitement in three days, last summer, because it was "too unsettled."

But youth likes to get about a little, after school, and then in the year to have a look at the picture of the world, and see other people, lands and ways. Settling down time comes soon enough.

It takes little business foresight to understand what young fellow with such experience will mean to Southern California, industrially, and in leadership, and trade with other countries, in a dozen years. If you must have a rough sketch of such a career, take that of Howard Hoover, who got his start in California, and went roaming, and came home with the bacon.

NEXT week, a few words about climate as others see it from a distance, at a disadvantage.

Light Week Looms for Southern Conference Elevens; Two Unimportant Games Billed

OXY TAKES ON CALTECH TEAM

Tigers Favored to Romp Over Stanton's Outfit

Pomona Host to Redlands on Claremont Field

Whittier Goes to Arizona to Meet Wildcats

BY BRAVEN DYER

The full before the storm occurs in the Southern Conference football circuit this week, or at least it's supposed to be a full.

There are no games scheduled and at this distance the teams don't seem to be any more excited over either of them.

The league-leading Occidental team tackles Caltech at the Rose Bowl in Pasadena while Eugene Nixon's Engineers play now to the much-battered Pomona.

Redlands Bulldogs at Pomona College. Neither Caltech or Redlands has been able to win a game yet and it appears unlikely that either team will ever do so. The more funnier things have happened already this season.

Two non-conference games are set for Saturday morning to Arizona's toll with the Arizona University outfit and Fresno State playing San Diego State at San Diego.

HIGH GAME ON NOVEMBER 6

Unless Caltech rises up and does something rude to Oxy Saturday the next big game of the conference comes November 6 when the Tigers meet Bill Spaulding's Bruins in the Coliseum.

This game will be the only local clash of the day and should draw 25,000 fans to the Coliseum. Spaulding's team has no game scheduled this Saturday so if Oxy gets over Caltech there's nothing to prevent the Coliseum contest from being a high-class football tilt. The Bruins dropped their opening game to Whittier while Occidental is undefeated. Spaulding's team did the unexpected and beat the Cougars 20 to 10. They're 6-0 and may be the eleven to turn the trick again as the squad is going great guns right now. Bill gave the whole outfit a raise of \$1000 as a reward for their fine showing in trimming Pomona, 27 to 7.

The Engineers are not out of the running. Young Nixon's team could not recover from the demoralizing effect of that 80-yard gallop of La Boucherie's Saturday and as a result the team is prepared to come back against the Bruins. The breaks certainly did not favor the Pomona boys any, either. Inasmuch as they play Occidental Saturday, the only team but Whittier the Engineers still have a chance to win the championship if somebody can knock out Occidental.

Antonio Takes on Langford in Vernon Battle

Nick Antonio and Young Sam Langford will box the semi-wind-up to the Joe Tipton-Muhy Callahan scrap at Vernon a week from tonight. Langford rates in the same class with Baby Joe Gans and Jack Thompson. Antonio is a hitter.

Joe Tipton opened training camp yesterday. He is a full-fledged featherweight, but will try to make 140 pounds for Callahan.

Callahan is doing heavy work again. He did both road work and boxing yesterday. Muhy scaled 145½ for his fight with Charley Pitts last week, but says he will be around 138 for Tipton.

ENGINERS TOUGH

It is our belief the Engineers will give Occidental a much tougher game than the palpitating public expects.

OBSERVATIONS

BY THE INNOCENT BYSTANDER BILL HENRY

SAN FRANCISCO'S chances of doing something against U.S.C. depend entirely on the strength of the Stanford offensive. We made the bright young men a sweet target for the Golden Bears who never be able to beat the 1936 Trojans by playing defensive football. We never intended that statement to refer to the Golden Bear alone—it apparently applies to the other defensive teams we've seen in a long while is the Washington State outfit and they did mighty well to hold the Trojans to two touchdowns. The only two teams that have been respectable against U.S.C. were the Cougars and Oxy Tigers, both of which elevens decided to try the offensive after having two touch-downs made against them.

In our estimation no team can give the ball to the Trojans forty-five or fifty minutes out of the hour of play and keep them from scoring. Jones has the finest material in the world, they are well-coached and they have been playing well. Later on if they keep trying they are going to score on anybody and the only way we can think of to make a showing against them is to keep them as long as possible and let them carry the load of trying to stop you for a while. That happens to be the long suit.

Occidental seems to be out after two Conference football titles again this year as the Tiger frosh are showing unusual class. So far they have been winning on the road. They won't be beaten this morning from the north. In the meantime big Cliff Hard is drilling the Spartans in his conception of the Warner plays as obtained in several jaunts north to Stanford games.

Among the good points of U.S.C.'s showing in the California game was Morton Kaer's dandy punting. It was a shame in this shift. Instead of making two jumps to their places in line the boys only jumped once. They huddle just as before, but they walk to their position. It is a good idea to have a line of scrimmage. Then when they jump come to a halt and are off with the snap of the ball.

As a result there was only one yard gained when the backfield became in motion called on them in the California game.

LANDIS FAVORS ROOM FOR PLAY

(Continued from First Page)

to hold any conferences or make any speeches.

"I just wanted a period of mental suspense and came out to the man's playground to get it," he observed.

He said little about baseball, except that he has been a fan for forty years and still is. Virtually his entire conversation was devoted to play.

Judge Landis, who is accompanied by Mrs. Warner, will remain in Los Angeles for several days.

With Occidental, Pomona and Southern Branch still in the running for the championship the most exciting days of the conference race are still to come. After this week's games it will be hammer and tongs for all.

Antonio Takes on Langford in Vernon Battle

(Continued from First Page)

ent bantamweight champion of the world, Bill Taylor—a close competitor at that.

La Panto defected the Philippines eighteen months ago in a lèse-majesté fight, which was before he became champion. That fight, say the ringwomans who have seen Nationalists in his recent fights, can't be compared to the recent ones because the Philippines is a different fighter.

The champion is going at his best right now. He figures to enter his last fight at Vernon Saturday, and with this thought in mind, is going to clean up the ranks of the contenders before he hangs up his gloves. He will get a good start this evening.

Frank Tierney and Eddie Gleason appear in the semi-wind-up, and more action is expected here. Both have fought main events in the last few months are figured to be more than a special event at any rate. In the fight, Tony Yovar and Gene Ellis and Billy Tingle and Frank Coliva are billed.

ROCKY SMITH WINS BOUT

PHILADELPHIA, Oct. 25. (AP)—Rocky Smith, 104½, of Crest, Mich., avenged a judge's decision over Del Fontaine, Canada, at the end of a ten-round bout tonight.

(Continued from First Page)

about his absence from the line-up.

Of course, he hopes to have Drury back in the line-up. What coach wouldn't? And last night Jones said that the injury was more likely to heal rapidly because he learned to move the injured part in his sleep.

The Bruin team is reported to be

desperate as the Bruins will

be fighting to stay in the Conference race while the Tigers will

be after revenge for last year's defeat in addition to trying to keep their record clean.

NOTHING NEW ON CARDS

Big Bill Cole, who spent Saturday in Oregon scouting the Stanford team, reported by wire that was nothing new on the Cards. He won't be back this morning from the north.

In the meantime big Cliff Hard is

drilling the Spartans in his concep-

tion of the Warner plays as obtained

in several jaunts north to Stan-

ford games.

Clint and Bell added to their gen-

eral score when they defeated Mc-

Gahan and Crocker, 26 to 28. This

was the only game as both

parties had 100 points while Crocker

and McLean, Dutch Smith, Leland Tip-

ton and Clyde Swanson.

A large number of entries have

been received from leading clubs in

the area.

COURSE FOR OPEN

NOT YET NAMED

Uncle Eddie Turtu, president of the

Southern California Golf Association,

and Emerson Speer, president of the

American Chapter of the California

Golf Association, have

refused to name the course upon

which the \$10,000 Los Angeles open

tournament will be played early next

January.

Scores of eastern and southern

professionals will arrive

early next month and would

immediately take advantage of

daily practice rounds on the selected

course, it was stated. This would

work a great handicap on the west

coast.

The decision is a difficult one

worth while local club has been very

evasive when the question of using

the course for the event was

broached.

Weather is probably the most

important factor in the whole thing.

If those in charge of the event decide

rightful that golf should be the

most important to be answered.

The answer is not yet known.

The tournament is to be held

at the new course.

The course is to be

a 10,000 yard course.

The course is to be

a 10,000 yard course.

HOSPITALS HERE UP TO STANDARD

American Surgeons' College
Tells of Survey

Total of 2528 Institutions
Inspected

Improvement Shown Over
Last Year's Survey

MONTREAL, Oct. 25. (Exclusive)—Dr. Franklin H. Martin, director-general of the American College of Surgeons, addressing the Hospital Standardization Conference of the Clinical Congress of American College of Surgeons which opened today in Montreal, presented the list of approved hospitals of thirty-five and over. These hospitals have adopted the fundamental requirements for the right care of the patient and the broadest community service, as provided for in the minimum standard requirements laid down by the American College of Surgeons. "If every hospital in the United States and Canada," said Dr. Martin, "were operated strictly under hospital standard requirements, there would be at least a saving of 24,000,000 hospital days for the 12,000,000 patients, as compared with conditions prevailing prior to 1918, when the hospital standardization movement began." Further, the hospital death rate under the same conditions would be reduced on the average 15 to 30 per cent.

SMALLER HOSPITALS
"The smaller hospitals have been seriously handicapped because the resources have been limited for financial resources to carry them and to give them the advice and assistance they so much desire. The college must continue its work among the larger hospitals, but it is also endeavoring in some way to finance the work of the smaller institutions. Their importance in the United States and Canada is shown in the fact that of the 2,400 hospitals in the country, 65 per cent have 50 or less beds capacity, more than 1500 in number represent 97 per cent of the total active hospitals with beds aggregating 44,728. Many of these could not be approved as hospitals.

The only reason they are not on this list is because of the increased expenses that would be incurred by the survey.

The annual survey embraces active general and special hospitals of thirty-five beds and over in the United States, Canada and other countries, numbering this year 2528. The survey includes the Federal Government of the United States, Army, Navy, Public Health Service, Veterans' Bureau, National Homes for Disabled Volunteer Soldiers, and a number of hospitals in other countries. The list as announced this morning shows a healthy growth from 692 hospitals surveyed in 1918, with only 50 or 125 per cent approved or meeting the requirements. The survey in 1925, with 1791 or 625 per cent approved—a most gratifying result.

The following hospitals in the State of California have been awarded full or conditional approval.

The material indicates that certain hospitals have accepted the requirements which result in the best scientific care of the patient, but are not for the lack of money or other possible reasons carrying them out in every detail:

Letterman General Hospital, San Francisco; U. S. Naval Hospital, San Diego; U. S. Marine Hospital No. 19, San Francisco; Veterans' Hospital, Camp Kearney; Pacific Branch National Home, Soldiers' Home, U. S. Naval Hospital, Manzanar; U. S. Naval Hospital, San Diego; Veterans' Hospital, Livermore;

100 OR MORE BEDS

AMERICANS TO BE INVITED
VANCOUVER (B.C.), Oct. 24. (Exclusive)—An official invitation will be issued to the American Institute of Mining and Metallurgical Engineers to send representatives to the British Empire Mining Congress which will make a six weeks' tour of Canada from coast to coast in 1927.

MINERAL OF EXPLOSIVE KIND FOUND

Substance Discovered in
Mexico Blows Up When
Given Outlet

WASHINGTON, Oct. 25. (AP)—Mineral that exploded when first discovered was brought back here by Dr. W. F. Foshag, Smithsonian Institution geologist, from an expedition into the mining regions of Northern Mexico.

Discovery of the mineral was made while men were extracting silver ore from the mountains and offered a charge of dynamite, and were believed to have resulted from the mineral forming in insufficient space and bursting when an electric current was applied.

Crystals of gypsum the size of a six-foot post, eight to ten inches thick, the largest known gypsum crystals in the world, and another new mineral, veldardite, also were found.

Dr. Foshag said the exploding mineral was called Hille-

Slayer of Napa Phone Operator Given Life Term

Former German Soldier
Writes of Gold Assorted
Stolen From Belgium

NAPA, Oct. 25. (AP)—Fred E. Evans, who shot and killed Mrs. Letta C. Govey, switchboard operator at the Napa State Hospital, as she sat at her switchboard on the night of September 13, today was sentenced by the Superior Court to life imprisonment in San Quentin State Prison.

Evans, who shot himself at the time, but subsequently recovered, pleaded guilty to the murder of Mrs. Govey. A hearing to determine the extent of his guilt was held. Dist. Atty. Anglim who had been a boyhood friend of the defendant, moved that he be given the life sentence.

FOUND DEAD IN HOME

STOCKTON, Oct. 25. (Exclusive)—Clarence F. Van Harlingen, former newspaper man and the son of J. A. Van Harlingen, publisher of the Union-Democrat of Sonora, was found dead in his home at 106 Main Avenue, the victim, it is believed, died of heart failure.

TREASURE BURIED IN NORTH SEA

Former German Soldier
Writes of Gold Assorted
Stolen From Belgium

WASHINGTON, Oct. 25. (AP)—Buried treasure of 9,000,000 francs in gold and silver currency lies hidden on the shores of the North Sea near Ostend: so Petrus Jarden, a former German soldier, informs the Ostend authorities in a letter dated Kiel.

Jarden says the money was stolen by the National Bank of Belgium in 1914 by German sailors, who were forced to bury it to escape punishment.

The National Bank of Belgium has no record of the loss of such an amount in 1914, but the Ostend authorities will be asked to refer the Foreign Office at Brussels for investigation.

So great is the amount of inland water shipping in Germany that the lower Rhine harbors are congested.

'Naptha' Label Use Forbidden Soap Makers

WASHINGTON, Oct. 25. (AP)—Procter & Gamble, Ohio soap manufacturers, today were denied relief by the Supreme Court from the decision of the lower Federal courts holding that the company must revise its advertising methods.

The court's action was a victory for the Federal Trade Commission which had ordered the company to cease using the word "naptha" in connection with its soaps.

Evans, who shot himself at the time, but subsequently recovered, pleaded guilty to the murder of Mrs. Govey. A hearing to determine the extent of his guilt was held. Dist. Atty. Anglim who had been a boyhood friend of the defendant, moved that he be given the life sentence.

**EARLY TRIAL SOUGHT
IN DOHENY-FALL CASE**

WASHINGON, Oct. 25. (AP)—An early trial of the Doheny-Fall naval conspiracy will be sought by the government. Owen J. Roberts, special prosecutor, said today a date in November or early in December probably would be asked.

TOURIST CURB PROTESTED

Mexico's Restrictions on Travel Lead to Great Loss for Hotels and Railroads

NUEVO LAREDO (Mex.) Oct. 25. (Exclusive)—Railway companies, hotels and tourist agencies of Mexico are combining in a protest against the ever-increasing regulations being imposed on travelers entering the republic. These organizations are receiving the support of the leading newspapers of the country, who point out that the new regulations which went into effect this summer and have subsequently been amended with new requirements are spelling death to tourist travel in Mexico.

"Not only is the immigration law, with all its prohibitive clauses turning away Americans from Mexico," says one writer in a newspaper of the national capital, "but the new regulations imposed at the frontier are making Mexico more inaccessible than the famous Chinese Wall."

Agreements between the United States and Mexico have eliminated the necessity of passports for citizens of either country to enter the other, but the restrictions imposed by the Mexican government have made the obtaining of a visa a necessary companion with the present plan.

The America must now see the nearest Mexican Consul, present positive proof of his American citizenship, tell his occupation, his reason for desiring to enter Mexico, present photographs of himself and letters of identification, and then pay \$2 for papers of entry. In addition, he must present a certificate of vaccination.

MORE RED TAPE

But this is not the sum total of his care. He is by no means yet assured of entry into the country. When he arrives in Laredo, Tex., he must present the papers he because he would not recognize his shop. The American Consul, last night, the New York World says told him,

"Old Man Loewe," as he is known to his fellow-townspeople, is 74 years of age, nearly blind, and broke. His last battle is to keep from creditors who now come out, which used to employ 350 men, and his home. Both are heavily mortgaged.

When Mr. Loewe staged his final fight with the unions more than a year ago, he was given a \$100 verdict against the Hatton's Union and the American Federation of Labor, which was upheld by the United States Supreme Court. He collected every penny of it because of boy.

To get his money, Mr. Loewe levied attachments against the homes and bank accounts of his former employer. He was more critical at this time, but the American Federation of Labor took up collections throughout the country and the workers' homes were saved. The hatter has never regretted his step, and the workers learned to respect him as a man and a fighter.

A new regulation exacts an immigration fee of twenty pesos (\$10 American currency). The United States government, since an immigration fee of \$5 which, however, is returned if the traveler goes back to Mexico within six months. The Mexican fee, so far as we can learn, is not refundable.

Under this clause Americans who have lived in Mexico for even a score of years, traveling between the republic and the United States, have been asked to pay the same immigration fee.

Most of them, in order to avoid long arguments, have paid up. And strangely enough, although the fee is collected by immigration of individuals, the fees are deducted yet at the City of Juarez or other frontier cities except at Nuevo Laredo. Only Mexicans returning to the country are exempt from the payment of the fee.

The clause requiring an "unattached" woman to present a certificate of good conduct has been particularly obnoxious, and has suspended practical entirely the immigration of American women, who feel it quite unnecessary to account for their morals in such a manner. Moreover, this clause has had an effect directly opposite to that for which it was first enacted.

In view of these multitudinous requirements, tourist travel to Mexico has dropped to almost negligible figures, and many cases have been observed in which Americans rather than undergo the ordeal of complying with all the regulations, have turned back at the frontier, to California or Canada.

It is not infrequently these days that empty Pullmans are seen crossing over the border line into Mexico. The organizations protesting against the immigration law point out that 10,000 Americans are monthly to Cuba, leaving goodly sums in Havana. Many of these people, it is pointed out, would prefer to come to Mexico, for reasons of climate, tradition, and taste.

RESTRICTIONS COSTLY

It is estimated that the immigration law will cost the city of the City of Mexico at least \$200,000 monthly,

this sum being a conservative estimate of the amount that would be spent monthly by 2,000 Americans.

Under this condition, not more than fifty Americans are expected to Mexico monthly, and these do so only because of business or prospective investments.

The regulations have recently re-

sulted in the suspension of several American tours to Mexico, of which, it is pointed out, there should be at least one or two monthly.

Army Wig-Wag System to Be Discontinued

NEW YORK, Oct. 25. (Exclusive)—The principal, if now old-fashioned, "prop" for many a melodramatic scene which brightens early Army chronicles passes from the soldier's kit bag with the discontinuance by the War Department today of semaphore flags as a means of military signal communication in the Army.

The wig-wag system has lost its efficiency through the development of radio and numerous improved instruments.

The War Department says the wig-wag will continue to teach the wig-wag code to soldiers, but its use hereafter will be limited to electrical apparatus, and devices which flash dots and dashes by means of the sunlight.

It is estimated that the immigration law will cost the city of the City of Mexico at least \$200,000 monthly,

this sum being a conservative estimate of the amount that would be spent monthly by 2,000 Americans.

Under this condition, not more than fifty Americans are expected to Mexico monthly, and these do so only because of business or prospective investments.

The regulations have recently re-

sulted in the suspension of several American tours to Mexico, of which, it is pointed out, there should be at least one or two monthly.

Army Wig-Wag System to Be Discontinued

NEW YORK, Oct. 25. (Exclusive)—The principal, if now old-fashioned, "prop" for many a melodramatic scene which brightens early Army chronicles passes from the soldier's kit bag with the discontinuance by the War Department today of semaphore flags as a means of military signal communication in the Army.

The wig-wag system has lost its efficiency through the development of radio and numerous improved instruments.

The War Department says the wig-wag will continue to teach the wig-wag code to soldiers, but its use hereafter will be limited to electrical apparatus, and devices which flash dots and dashes by means of the sunlight.

RESTRICTIONS COSTLY

Women's Knit Underwear, Bullock's Fourth Floor

**I've Tubbed
These Bloomers
100 Times!**

"JUST see how beautiful these are—how wonderfully they have kept their shape and lustre. They haven't shrunk a bit—yet I must have tubbed them at least a hundred times!

"And wear! My dear, I never saw underthings wear so well! They're beautifully tailored—and strongly reinforced at all the points where most underwear just goes to pieces.

"They are made of an exquisite new silk—Spindrift!—100% pure. It's as soft as chiffon, yet so strong that I cannot tear it!"

It's the most luxurious—and at the same time one of the best wearing—silk underwear there is! In beautiful, soft shades of flesh, rose, maize, Nile green, and orchid. Also black or white.

Princess Royal

UNDERWEAR MADE OF
Spindrift
100% PURE SILK

Light as Sea Foam—Strong as the Tide

The difference Between Princess
Royal and Other Silk Underwear

(1)—It is made of Spindrift 100% pure silk—
no "wrapping" or "loading"—It is as soft as
chiffon, yet 35% stronger than equal weight glove
silk.

(2)—It is guaranteed not to shrink!

(3)—Each garment is individually cut by hand,
so that all the curves of the figure without bulk or
wrinkles.

(4)—Garments are full-fashioned to fit ex-
actly all the curves of the figure without bulk or
wrinkles.

(5)—Human hands cannot tear it—and unless
it is torn, it cannot "run."

(6)—Embossed silk buds at crotches and all
other main junctures doubly reinforce these points.

(7)—Shoulder straps are locked into the top
silk band, so that they will not tear off.

(8)—Reinforced buttonholes on the inside of
waist bands and leg bands allow elastic to be
widened or narrowed without cutting the silk.

(9)—Seams, ruffles, etc., are finished by a picot
edge that always keeps its shape and gives a
dainty, lace-like appearance.

(10)—Every seam is stitched with pure thread
all.

News brought out today,

the question as to what

happened in the home of

Judge Peter, between the

hours of 10:30 Saturday

and 11:30 Sunday, when her

husband and their daugh-

ter were found dead in the

body of Judge Peter is

now open, with a deep

hole in his forehead and his skull

The judge had recently been dis-

placed as District Attorney for

the Southern Illinois district.

He had lost

very heavily through the Florida

and Mississippi trials and

his famous power and fruit com-

pany of which he was a director,

went into bankruptcy.

A coroner's jury, selected with-

out the knowledge of the

undertakers that embalmed the bodies,

returned a verdict that Potter, in a

fit of insanity, killed five members of

his family and then committed sui-

cide, jumping into a eastern part

filled with water.

Undercover Bert Stoeby stated that

his examination proved conclusively

that Potter had died and that

he was dead when he struck the

head. Whether wounds on his head

were caused by falling down the

stairs or were made before reaching the

stairs and whether they were

caused by the cause death is now

placed as District Attorney for

the Southern Illinois district.

The distance from where Mrs. Pot-

ter was killed to the eastern part

of the state is about 10 miles.

Whether Potter could have walked

that distance, losing blood all the

way and still had sufficient strength

to jump into a body of water

is a question.

Fingerprints were taken by Joseph

Monovich of Benton, Ill. The expert

said that the family had failed to

co-operate with him and that

investigation because they were fully

satisfied that Judge Potter committed

the crime in a fit of insanity, which

was the disease that helped to cause

the death of his wife.

Dr. Gilbert White, son-in-law of

Judge Potter, whose wife and two daugh-

ters were killed, is expected to arrive

some time tonight, having been en-

route here from Miami at the time of

the murders.

CHICAGO, Oct. 25. (Exclusive)—

Five students of the Highland Park High

School were injured early today when a

Chicago, Milwaukee and St. Paul

passenger train crashed into a motor

bus in which they were riding at the Main-street crossing.

PACKERS VISION BRIGHT FUTURE

Adjustment Period Safely Past, Say Speakers

American Institute Meeting Congratulates Industry

Advertising Farm Products Solution of Surplus

CHICAGO, Oct. 25. (AP)—Safety through a six-year period of rigorous post-war adjustment, the American packing industry faces the future with greater confidence than at any time since 1920. F. Edson White, president of Armour & Co., said today in an address before the annual convention of the Institute of American Meat Packers.

"As we enter the year," he said, "we find our industry in a dynamic situation, its course directed, its questions clearly defined. Our issues are problems of yesterday versus today, the old regime versus the new, the existing versus the proposed."

Pointing to the success of the industry in meeting a critical situation after the rapid wartime expansion, Mr. White emphasized the significance of the experience as he saw it, and the value of the wisdom of non-interference with industry by governmental agencies.

PRODUCERS PROFIT, TOO

Not only the packers had regained a position of encouraging stability, but the producers, too, have been benefited by the stabilization of the entire industry.

In this connection Oscar O. Mayer, Chicago, president of the Institute, pointed out that "the sum paid to the producers for the same amount of ham increased by about \$50,000,000, the sum paid during the same period a year ago, and exceeds the sum paid during the same period of 1923 by some \$30,000,000."

Mr. White did not allude to the recent price war in the British packing industry, in which American and Argentinian products were in competition.

Commenting upon export trade during the past year, he said that most exports had fallen off 10 per cent during the first eight months of this year, compared with last.

John W. Garrison, president of the Chamber of Commerce of the United States, told the convention the general business outlook for the next year was most encouraging. He urged development of the producer agencies, such as the institute, for the self-regulation of industry. Such procedure, he said, was vastly more efficient than regulation by governmental boards and commissions.

ADVERTISING ADVISED

World-wide advertising of American farm products will result in a marked increase in agricultural relief, by Mr. Mayer in his address as president.

"Since surpluses do not develop every year in every crop," he pointed out, "an effort to dispose of the surplus in one commodity would permit of great flexibility."

"In most cases it would permit concentration on the commodities which most need and most command a price, so as to possibly increase the consumption of foods of which there is a surplus and thus balance production with demand in a most helpful way."

MUSEUM GETS ANKLE BONE OF ELEPHANT

SAN ANTONIO (Tex.), Oct. 26. (Exclusive)—The ankle bone of a prehistoric elephant, which was found twenty feet under ground near Falls City, Tex., near San Antonio has been placed in the Witte Memorial Museum in Breckenridge Park. The bone, which weighs twenty pounds, was about the size of a man's forearm. Officials who declared that it is very rare. It formerly belonged to H. B. Yelvington of San Antonio.

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent cough and colds lead to serious trouble. You can stop them now with Crescumin, an emulsified creosote that is pleasant to take. Crescumin is a new medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibit germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat trouble. Crescumin contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Crescumin is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory disease, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist.—[Advertisement]

Colds Ended overnight

You can stop a cold in 24 hours, check the fever, open the bowels, then tone the entire system. You can do these things with a single help, in the best way known.

That is HILL'S. It is so efficient, so quick and complete that we paid \$100,000 for it. It has proved its results to so many that millions now employ it. You will find nothing else to compare with HILL'S. Get it now and save.

The Home of Nature's Purest Water

Famous Arrowhead Springs with its hotel is visited by thousands each year. 225,000 people in Los Angeles drink water from its famous spring daily.

EVERY DROP of Arrowhead Spring water comes from this world famous Spa, recognized in this country as the "Cradle of Health."

And Arrowhead table water is as delicious as that favorite spring of your youth. Taste and see!

Nature filters it through granite for 13 miles, so "Arrowhead" is the purest mountain spring water known.

Healthful too, because "Arrowhead" contains the minerals natural to the blood, and in the same proportion. Arrowhead table water, when taken, helps to rid the body of poison and to offset the acidity caused by many foods.

Doctors say "drink at least three pints of Arrowhead water each day." That's easy to cause it tastes so good.

Early in the morning we draw this famous mountain spring water direct to glass-lined milk cans. The same day you have it in your home with the natural flavor unimpaired.

Then drink at least three pints a day. You soon find the reason why more than 250,000 people drink this famous table water.

Make This Test: Call WESTMORE 3231 and have a bottle of this famous Arrowhead Springs Table Water delivered to your home. Costs but 30 cents, with liberal discount if you use coupon books. We furnish you a stand and cooler free.

ENGINEERS IN TRIBUTE TO PIONEER SURVEYOR

SAN FRANCISCO, Oct. 26. (AP)—A spur at Mt. Diablo, Contra Costa county, has been dedicated to the memory of Col. Leander Ransom, pioneer army engineer, who surveyed the route for the government railroad and made the longitude of Mt. Diablo the survey meridian for the Pacific Coast.

STATE DESIGNATES VOTING PRECINCTS

SACRAMENTO, Oct. 26. (Exclusive)—Secretary State Jones today announced there will be 2012 voting precincts for the general election in California on November 2. Los Angeles county will have 2512 precincts, San Francisco 892 and Alameda 727.

Tales in Evans's
Will be Conducted
at Alhambra, Calif.

Funeral services for Tales in Evans, California newspaperman, will be conducted at 3 o'clock this morning at the home of his widow, Harry O. Hobart, 1000 Grand Avenue.

Mr. Hobart, who had been a reporter at the Los Angeles Times for 10 years, died at his home in Los Angeles on Sunday.

In this connection Oscar G. Mayer, Chicago, president of the Institute of American Meat Packers, pointed out that the little man had vanished.

"The city editor jerked his thumb toward the window through which the little man had vanished. "You think he's an insurance salesman? He's not the poet's soul. He isn't funny."

"Why—why, yes." "You think he's an idiot." "What man is a poet? His poetry is rotten." "A real poet. His poetry is rotten." "He's not a poet." "Edward—he's not the poet's soul." "He's not the poet's soul."

Outside, the figure of the man who was 40 years of age and looked to have moved happily toward his home. The city editor had agreed to print three of his verses. No payment, of course, was to be made. But Walton Garrison had not measured himself by a common yardstick. It was enough that it would be printed. Poetry was his life—his real, inner self. Print was the usual royalty basis, of course.

When Walton Garrison left the building, he was treading on air. In the air, which was a combination of the publication of a book of his poems. He saw the world in rose tint and azure. He knew the thrill of ultimate ecstasy.

And he did not tell his wife. He loved Ellen, but he knew that she could never understand. The thing was sacred.

The book appeared: a pretty, delicate little thing. The cover was inscribed "Poems by Walton Garrison." Only 300 copies were printed. The city editor had agreed to print the poems. He had carried it off with him into the wood. He looked at it—and looked and looked. His first book.

He wanted to show it to Ellen. But she couldn't. Ellen would not understand.

And at that very moment the Ellen was called into the office of the City Publishing Company. To the president she handed her own check for \$320. "And, of course," she said, "he must never know."

The president of the company smiled into the eyes of the drab, tired wife who could not understand.

Ellen Garrison could not write good poetry, but he was a poet. He was sufficient of a poet to know that his verses were bad: atrociously bad. Save perhaps for a certain something that he had in common with others. They showed their poor qualities. His thoughts were the thoughts of a poet. He had been denied the gift of expressing those thoughts as he wished. He had been denied the gift of writing well enough to have an understanding of his own work.

He boarded a street car and went home to the gray humdrum home in the suburbs. There he was greeted by his three children and his wife. He had the soul of a poet, but not of an insurance salesman. His poems did not measure up to his wife's. He had sold unexpectedly a big policy to one of the city's most prominent men and given the "commission to Ellens" with a fine wife and mother. But she was not a poet. She was a chiseler—once pretty—she had had a hard enough time, and he knew it. He loved her dearly and liked to bring a smile to those once-soft lips and eyes. He had sold unexpectedly a big policy to one of the city's most prominent men and given the "commission to Ellens" with a fine wife and mother. But she was not a poet. NEWS OF SOUTHERN COUNTIES

NEW BREA BANK WILL OPEN SOON

Institution to be Ready for Business November 6

Capitalized at \$50,000 With Surplus of \$10,000

Z. H. Brown is President; W. C. Davis, Cashier

BREA, Oct. 25.—The Oil Fields National Bank will open its doors to the public at 9 a.m. November 6, remaining open all day and until 6 o'clock that evening. Temporary banking quarters have been taken at 118 South Fomona avenue, in the building being vacated by the Brea Electric Company.

The new banking institution, capitalized at \$50,000, will open well equipped to handle all lines of commercial and savings bank accounts, as well as money orders and safety deposit boxes. Officers selected are: A. H. Brown, president; Walker C. Davis, vice-president and cashier; Dr. W. E. Jackson, vice-president; H. E. Breen, cashier; and Dr. W. E. Breen.

Until January 11, 1927, on which date the first stockholders' meeting is to be held, the board of directors of the new bank will consist of H. E. Breen, president; Dr. W. E. Breen, vice-president; and safety deposit boxes. Officers selected are: A. H. Brown, president; Walker C. Davis, vice-president and cashier; Dr. W. E. Jackson, vice-president; H. E. Breen, cashier; and Dr. W. E. Breen.

Burglar Dines at Minister's Home Uninvited

LONG BEACH, Oct. 25.—The sufficiency and the quantity of the food-stuffs and the bounteousness of the tables which are set in the home of Rev. Louis J. Baumer, pastor of the First Brethren Church, was testified to by the actions of a pair of desperadoes who entered the minister and his family a few days ago.

Entering the house, the burglar first explored the ministerial larder, after which he found viands and a dish of sandwiches, which he ate himself down to a meal. The food was good, but too well, with the result that the trouble was no longer with the minister, but with the burglar.

The trouble was soon remedied, however, for a pair of the minister's larger and more comfortable after the full meal, were readily at hand.

The burglar left after donning the trousers and taking \$15, all the cash in sight. He left his own trousers as a souvenir. They are at the police station where Detective George L. Partridge, who says the burglar may have them to call and establishes proper identification.

LARGE RABBIT FIRM BUYS IN LANKERSHIM

LANKERSHIM, Oct. 25.—The Consolidated Rabbit Corporation has decided to make Lankershim its headquarters, after spending the last six months seeking a packer location in the Los Angeles metropolitan area. One of the officers stated today that the concern has purchased nine and a half acres of the J. M. Bowen ranch at Foothill avenue and Glendale Way (between 7th and 8th streets), with the intention immediately to erect twenty-four five-room English type houses with garages, rabbitries and kennels. The town is to be made into a small English village, with all streets lined with Lombardy poplars. In conjunction with the twenty-four production units the concern will have its own unit with 7,000 square feet under roof. Plans at present call for 1,000 breeding rabbit does and a maximum of 7,000. The entire project is in keeping with the fact that San Fernando Valley is and is coming one of the largest meat and fur rabbit growing centers in California.

CALEXICO GINNINGS TOTAL 22,800 BALES

CALEXICO, Oct. 25.—Cotton ginners in the Calexico agricultural district report that output is at 4200 bales for the past week bringing the season's production to 22,800. Yuma district reports 13,900 bales to date. Little information is being collected, however, as to the amount of cotton being retained to hold their staple until the market takes a more favorable turn.

PUBLICITY FUND ASKED

Rose Tournament Officials in Conference With County Supervisors Request Appropriation

PASADENA, Oct. 25.—County funds may be granted for the purpose of obtaining publicity for the annual Tournament of Roses, Pasadena's mid-winter floral pageant, as a result of a conference held today by Tournament Association officials and members of the County Board of Supervisors.

Harlan W. Hall, manager of the tournament, and Joseph Gaunt, Pasadena banker and a director of the association, based their request to the Board of Supervisors on the ground that the Tournament of Roses is an internationally-famous event that belongs to all Southern Californians, and the Pasadena funds to give the pageant adequate publicity in all parts of the country will reap great benefits for the Southland as a whole.

Supervisors McAllister, McFielean and Wright conferred with the tournament officials and all three, it was

Woman Taken in Stabbing of Man on Street

SAN DIEGO, Oct. 25.—Mrs. Ruth Butts, 23 years of age, wife of a sailor, is held today in the City Jail charged with stabbing Charles McNamee, a streetcar conductor, who is said to have attacked as he walked on the sidewalk past the woman's home early today.

According to witnesses, there was a row in Mrs. Butts' home at 1261 Front street. Two men rushed out, followed by Mrs. Butts who is said to have cried: "All of you best it! I'm going to kill somebody."

McNamee, who was passing, turned around in amazement.

"ubberrific!" Mrs. Butts is said to have yelled. Then she plunged a five-inch knife into McNamee's body. The stab was picked up from the sidewalk and taken to the County Hospital, where he is suffering from a severe wound in his abdomen.

At the time the jail was opened, Mrs. Butts was said to have been in a semi-conscious state, "but she had stabbed McNamee."

Oliver Goodwin, a police officer, who was with the woman, said she came here from Seattle about three weeks ago.

Noisy Pigeons That Disturbed Council Killed

RIVERSIDE, Oct. 25.—When the Council conducts its next session there will be 100 less pigeons to distract its deliberations with their cooing, this being the approximate number that were rendered permanently quiet early today by the deadly aim of G. E. H. Patterson, acting city manager.

Just at dawn G. E. H. Patterson, acting in accordance with instructions from the Council, systematically began knocking the offending pigeons from their roosts on the City Hall tower with a shotgun and a rifle-carbine, loaded with shot shells.

As their ranks were thinned, the pigeons became frightened and flew off to the City Hall again.

By the time the streets became clear the pigeons accounted for about 100 of the birds. No further attacks, he stated, and he believes that after two or three mornings he will have killed most of the birds and secured the streets for the members when their noisy visitors interfere with the momentous discussions of the Councilmen.

WOMAN TRIES SUICIDE

Sanatorium Patient Dodges Guards and Casts Self in Ocean

HERMOSA BEACH, Oct. 25.—Mrs. C. E. Stafford, a patient at Casa Del Mar Sanitarium at Palms attempted suicide this morning by casting herself into the ocean at the foot of Hermosa Beach. Residents of the ocean front saw the woman enter the water fully dressed, and as the first breakers tossed her ashore, ran to her aid.

Officers Churchill and Marshall of the Hermosa Beach police department brought the woman to the emergency hospital, where attendants have been Goodwin and Gaines. Mrs. Goodwin, however, could not identify the patient.

She had paid no attention to them, she said.

E. E. Dunn, proprietor of a grocery at 516 West Eighth street, Los Angeles, next testified that Mrs. Goodwin, on March 13, was the first witness called by Chief Deputy District Attorney C. N. Moseley, who conducted the questioning.

He said that his disappearance last March 13, was the first witness called by Chief Deputy District Attorney C. N. Moseley, who conducted the questioning.

Robber Attempts to Hold Up Long Beach Man by Mounting Running Board, Only to Tumble Off When He Gets Haymaker

LONG BEACH, Oct. 25.—When an street when the bandit, rushing from an armed bandit leaped on the running board, jumped on Olson's running board, and gave the customary "hands up" command as he tumbled off the board in Olson's face.

The latter was not hurt, but noted suddenly that the bandit was in the act of changing his gun from one hand to the other. Quick as a flash Olson's fist shot out and caught the bandit in the middle of the jaw. The latter was buried to the pavement and Olson "stepped on her."

He drove to the police station to report the robbery and made a hurried trip to the scene of the attempted hold-up. The bandit fled.

BAKERSFIELD Citizen Dies After Being Struck Down by Auto on Highway

BAKERSFIELD, Oct. 25.—Tragedy in the form of automobile accidents, stalked Kern county highways in and near Bakersfield Sunday, leaving in its wake a list of victims including one dead and eight injured.

Another victim of Kern county

was in the County Jail in connection with the death.

The dead:

Augustus Phelps Ackerman, 50, years

of age, of Bakersfield.

The injured:

Guadalupe Montoya, Bakersfield, fractured skull, condition critical.

Mrs. G. Montoya, Bakersfield, internal injuries, scalp wound.

John Morris, 2 and 4-year-old son,

bruises and cuts.

George Krauter Arvin, concussion of the brain.

F. Fernandes, Wasco, cut over left eye.

F. Fernandes, Wasco, severe scalp wound.

J. Fernandes, Wasco, ankle and foot seriously injured.

According to reports from the local Sheriff and traffic officer, Ackerman was struck about two miles south of Bakersfield when he was struck by a machine said to have been driven by Mrs. Larry Nabors. It is asserted that the car was traveling down the highway without stopping to give aid to the dying man.

The two exchanges will return to their growers a sum approximating \$15,000.00 and the balance of the estimated gross return of \$20,000,000 is credited to the independent growers.

FINANCIAL

COTTON CROP IS LARGEST KNOWN

Federal Forecast Indicates 17,454,000 Bales

Harvest Uncertain; Farmers Discouraged by Price

Market Declines Sharply to Lowest Since 1921

WASHINGTON, Oct. 25. (AP)—A cotton crop larger than ever before grown has been produced in the South this year. The Department of Agriculture today placed the indicated production at 17,454,000 bales of 500 pounds gross weight, or about 8,225,000,000 pounds of lint cotton. This is about 460,000,000 pounds of lint more than produced last year.

The cotton crop is the largest existing the 18th inst., to which date 6,722,000 running bales of this year's crop had been ginned, according to the Census Bureau's announcement. There was an increase of 1,000,000 in previous production between the 1st inst. when the last estimate was made, and the 18th inst. Uncertainty exists as to how much of the crop will be harvested, the crop expected to be harvested in view of the present low price of cotton and the scarcity of labor for picking. The factors have discouraged farmers and may result in some of the crop being sold, or of lower grade, being left in the fields.

ACROSS THE COUNTRY

This year's enormous production was brought about by the planting of the large acreage of cotton and favorable growing conditions generally throughout the season. There was a smaller early-season abandonment than in previous years and weather was more favorable than usual. Defoliation of the cotton plants by leaf worms, contamination of warm weather and the general absence of frost, advanced the maturity of the cotton bolls and permitted rapid picking. The result of all these conditions the crop has turned out to be much greater than was expected.

The previous year's indicated production based on the 1st inst. conditions placed the crop at 16,427,000 bales and the acre yield at 188.4 pounds. Last year's crop was 16,103,470 bales and the acre yield, 187.3 pounds.

STATES' REPORT

The indicated production by States follows: Virginia, 45,000 bales; North Carolina, 1,300,000; South Carolina, 1,170,000; Georgia, 1,470,000; Florida, 1,200,000; Kentucky, 1,200,000; Tennessee, 600,000; Alabama, 1,600,000; Mississippi, 1,750,000; Louisiana, 750,000; Texas, 6,400,000; Oklahoma, 1,600,000; Arkansas, 1,300,000; New Mexico, 200,000; Arizona, 100,000; California, 2,200,000; Colorado, 100,000; (Old) Idaho, 300,000; all other States, 30,000.

PRICE BREAKS AS FORCAST SHOWN

NEW YORK, Oct. 25. (AP)—Cotton prices broke approximately \$1.30 a bale to the lowest levels since 1921 today in the New York market when thrown into confusion by the government's forecast of the largest crop on record—17,454,000 bales.

WASHINGTON, Oct. 25. (AP)—Cotton of this year's crop ginned prior to the 18th inst., amounted to 6,722,000 running bales, including 265,190 pound bales, counted as half bales and excluding linters, the Census Bureau announced today.

OIL EXPORT TRADE SOUGHT

California Petroleum Aggressor in Contracting for Sale of Shipments; Leading Crude Exporter

BY EARL E. CROWE

California oil companies evidently are not greatly disturbed over the unsealment in the Southern California gasoline market. Higher prices would be welcomed, of course, but there is still the opportunity to harvest a neat profit from bulk shipments of crude, fuel oil and gasoline in the export market. If the enterprise of the California Petroleum Corporation is indicative of the trend, the California companies are all anxious to increase their 1927 export shipments.

On the basis of the contracts already signed for fulfillment next year, California Petroleum probably will be the largest exporter of crude oil from this State. G. L. Coggan, vice-president and director of sales, yesterday announced that his company has contracted to ship approximately 2,500,000 barrels of crude oil from the loading terminal at Los Angeles Harbor. Because of these contracts, the company has recently purchased four tankers and expects to purchase and charter several more.

GAIN OVER LAST YEAR

In addition to the crude oil contracts, California Petroleum Mr. Coggan will export about 50,000,000 gallons of gasoline and about 5,000,000 barrels of fuel oil. In all, the 1927 export contracts represent an increase of approximately 25 per cent over 1926.

The aggressiveness with which this company has gone after export business does not mean that the officers have disposed of a return to normal in the Southern California gasoline market. On the contrary, Mr. Coggan believes that conditions here are fundamentally sound, and that improvement in the price structure will be evident in the near future.

The aggressiveness with which this company has gone after export business does not mean that the officers have disposed of a return to normal in the Southern California gasoline market. On the contrary, Mr. Coggan believes that conditions here are fundamentally sound, and that improvement in the price structure will be evident in the near future.

The same group of men who were

responsible for the recent price

surge in gasoline are now probably the smallest in some time. Some of

the largest companies are not even

entering into contracts for the export of gasoline in wholesale quantities.

Most of the companies in this State, according to the California Petroleum sales director, are backed by small

oil companies and are not in a position to meet the possible requirements of their own retail trade.

TO BUILD FLEET

While there is not a burdensome

supply of crude oil in California, the

companies that do have a surplus

are probably willing to take the

smaller amounts from which others

are abstaining.

Expecting to continue largely

in the export business, California

Petroleum, starting with the recent

acquisition of the four tankers, intends

to build a small fleet to transport

its products.

Three of the tankers acquired from the California Steamship Company, named

California, Columbia, and California Ann, have a capacity of 50,000 barrels

each. The fourth, the recently

acquired from the Atlantic, Gulf and West

Pacific Pipe and Steel Company, has a capacity of 20,000 barrels

each. The fifth, the recently

acquired from the Western Pipe and

Steel Company, has a capacity of 10,000

barrels.

Recently California Petroleum en-

tered into one of the largest fuel oil

contracts ever signed. Over 1,000

barrels of fuel oil will be supplied to

furnish about 14,000,000 barrels of

fuel oil to the Great Northern Rail-

way. The product will come chiefly

from the California Petroleum re-

fineries in Montana.

The stock, of which a limited

amount will be offered to the public,

is combined in units of one share

of common and of common and

preferred stock, having a par value

of \$100 and carrying a cumulative

dividend of 8 per cent per year,

and the company will be entitled to

the full par value of the stock in

the event of liquidation.

STOCKS LOWER ON DULL MART

Uncertainty as to Future is Curb to Activity

Industry Leaders Weak, Relatively Firm

Total Turnover Smallest in Several Months

NEW YORK. Oct. 26. (AP)—Stocks were irregular in yesterday's market, one of the quietest sessions in recent months, but an irregular recovery occurred, showing the trend of business and elections. Uncertainty over the future uncertainties were among the many reasons for the fluctuation. A bond issue for the liquidation of was placed upon the market at an estimate of 174,000 miles, the largest on record, but the market was about 150,000 miles. The sharp deficit in stocks shows

(Continued on Page 17, Column 2)

MINING AND OIL STOCKS IRREGULAR

Union of California Up Sharply; Julian Issues Lack Strength

Oil stocks were irregular in the Los Angeles Stock Exchange yesterday with Union Oil of California leading the advance and Julian Petroleum preferred frustrating the activity. Union advanced 1 1/4 points to a new high on the present movement at 85, where it closed. Union preferred sold off from an opening of 85 1/2 to 12, rallied again to 12 1/2 and reacted to 12 1/4 and closed finally at 12 1/4, a fractional net loss. The company closed firm at 3 1/4.

Standard Oil of California opened at 94 and declined 1/2 point to 93 1/2, for a net loss of 1/2 of a point. Standard Oil of California moved up 4 to 80 1/4, while California Petroleum sold at 80 1/4. Union advanced 1/4 point to a close at 80 1/4.

Lucky Boy Dividends and Big Jim continued to dominate trading in the mining group, the former selling off sharply to 74 1/2 and closing at 74 1/2, after about 160,000 shares had crossed the board. Big Jim was strong and added another point to 77 1/2 with a good volume. Gold Dust held at 7 1/2, as did Western Apache.

Southern California Edison company lacked strength and sold off 8 1/2 of a point to 80 and closed at 80 1/4. Edison preferred house held at 80 1/4. Los Angeles Investment closed 2 points lower at 80 1/4. The corporation closed 3 1/4 of a point lower at 80.

Report that negotiations might be

resumed for the sale of the White Star Lines prompted some buying of the small Merchant Marine Co.

but the recovery failed to hold.

The aviation market was weak.

Automobiles, steel, copper and

and coal were also weak.

GOOPS!
A Daily Lesson in Manners for
Children
BY GELETT BURGESS

Illustration: 1926 by The Chicago Tribune.

THINK BEFORE YOU ACT
A little bird once asked of me,
"Of all the children that you
see,
Who are the nicest and the
best?"
I thought a while, then I con-
fessed,
"The ones who think before
they act
Are never Goops, and that's a
fact!"

Bill Executive Tells of Danger to
Business in West

WASHINGTON. Oct. 25. (AP)—In-
roads made on the passenger traffic of
western railroads by motor bus com-
petition was described today before
the Interstate Commerce Commission
by H. F. Adams, vice president of the
Union Pacific system, who advocated
regulation of the motor vehicle traffic.

Adams said there had been sharp

less-than-truck load freight in-

roads.

Railroads are obliged to stick to

the same schedules while trucks,

he said, having varying load and

direction are accustomed to cut rates

sway down to obtain a return load.

CHRISTIAN EMBLEM IS RESTORED

**Catholic Orders Replace
Cross on Roman Coliseum
After Fifty-two Years**

ROME, Oct. 25. (Exclusive)—The
cross, the symbol of Christianity, re-
turned to the Coliseum at Rome this
afternoon after banishment for fifty-
two years.

On the historic earth sanctified cen-
turies ago by the blood of Christian
martyrs, members of various
Catholic orders replaced the emblem
which was torn down in 1874, four
years after Rome was captured by the
Papal States.

The Jesuits, Franciscans, Capuchins
and other monastic groups took part

in the ceremonies. The Pope sent a
special representative. The ancient
structure was replaced with the Sym-
bol of the church.

Great significance is attached to
the return of the cross to the constant
rumors of the approaching settlement
of the "Roman question" which pre-
vailed Musolini hoped to achieve with-
in the coming months.

More than half the glass tumblers
used in coffee shops of Aden, Arabia,
are from America.

NOTHING CLEARS AWAY PIMPLES LIKE POSLAM

Girls who use Poslam never have
bad complexions! Its soothing,
concentrated medication simply
drives pimples and blackheads
away like magic. Try it yourself.
At all druggists. 50c.

No more unsightly Pimples! SSS gives you a clear skin

WHAT a delightful sensation to
look in your mirror and find
your face free from pimples,
blackheads, blotches and other
skin blemishes. Isn't it wonderful
to see your face radiant with red-
blooded health?

Pure, red blood is what it takes
to have a lovely skin. Facial blem-
ishes can't be covered up success-
fully. Nor will anything else
drive away these unsightly pim-
ples and such, but the cleansing of
the blood and the adding of rich,
red blood.

And that's what S. S. S. does.
All those objectionable blemishes
will vanish and your skin will be
soft and clear. S. S. S. has
been such an aid for generations.

Everybody is attracted to the
girl with a rosy, healthy coloring,
the girl with the soft, velvet-like
skin—a skin so lovely that it tells
of health and vitality. There
is no excuse for dis-
tressing eruptions on
the skin. We know they can be driven
away quickly with a
powerful blood alterative such as
S. S. S. has proven to be for 100
years. Start taking S. S. S. today
and get the largest size bottle. It's
more economical.

Two Angeleno Women Hurt in Smashup

L. B. ROSS
ONE OF INJURED

Replies Receives
Serious Bruises

From Over on Trip to
San Diego

Walter Snyder and Party
Bally Shaken Up

Woman of Mrs. Lucy Banning
and wife of Robert E. Ross, son
of Federal Judge Ross, and
Miss Bessie, pioneer Califor-
niaan for many years a resident
of Rosedale, died yesterday when
they were involved in a smashup
yesterday, when they were
driving to San Diego
from the road and over-
the mountains.

Both were removed to Los An-
geles in ambulances and taken to
City Hospital, 809 Commonwealth
Ave. X-ray examination showed
the Bannings, who are 34 years
old, the more seriously hurt.

Both were made yesterday
in an effort to learn the
details of the accident.

A severely
bruised and maimed bantam
chicken escaped minor
injuries. The car
was damaged. The accident
occurred on the way to the
Highway.

At this year Mrs. Ross, who
is now 54, is the second

husband of Mrs. Ross, who is the
second.

Both were removed to Los An-
geles in ambulances and taken to
City Hospital, 809 Commonwealth
Ave. X-ray examination showed
the Bannings, who are 34 years
old, the more seriously hurt.

Coulter Dry Goods Co.

FOUNDED IN 1876

48th ANNIVERSARY 48th

Seventh Street at Olive

215 South Broadway

Laces

\$1 a yard

HUNDREDS of yards of the prettiest laces one could ask for to make into alluring Christmas presents or a dozen other purposes!

Surplus lots and broken lines of metal, Alencons, Chantilly, Venice and similar popular laces regularly priced, many of them, at double.

(Main Floor—Coulter's)

Ruffling and Banding

\$1.50 a yard

A NOTHER group of odd pieces to be closed out much to the advantage of you who buy Tuesday!

Many of them are trimmed with real laces; others are practically entire Venice, Valenciennes, Alencons and similar laces; beautiful colored ruffling and collar tabbing—former prices up to \$6.50 a yard!

And at 50c a Yard—ruffling and banding in white and cream, very specially priced.

Ribbons

25c a yard

UNUSUAL values here—the most prominent ones being metallic ribbons with two-toned effects; conventional and floral designs; and plain satins, grosgrains, picot edges in grosgrain and moire, stripes and like ribbons for holiday work.

(Main Floor—Coulter's)

Radio Silk Slips

only \$2.45 each

Particularly good quality in these; hemstitched finish at the top; deep shadow hem; shown in delicate pastel shades and the more practical street shades, also in sizes 16 to 44.

(Fourth Floor—Coulter's)

Corsets, Brassieres

Reduced **1/3 & 1/2**

Broken lines of corsets, brassieres and corsettes; taken from our own good stocks for a clearance in the 48th anniversary.

(Second Floor—Coulter's)

Interesting Values Tuesday in Women's Dresses at \$45

NO woman who considers her dress budget at all can afford not at least to look at these smart new Fall frocks at \$45—they have the tiered skirts, blouse Gypsy girdles, Vionnet and plain sleeves which instantly distinguish them as late arrivals.

Chanel, jungle green, autumn tans, browns, navy, raisin and black tones in plenty. Satins, Canton crepes, Frisia and wool twills in the assortment; many combined with velvet, which is one of fashion's newest notes.

And each has that youthful, slenderizing effect that endears it to women, whether they wear size 16 or 44.

Travel Coats Featured at

\$69.50

Elegant imported materials in Fall's accepted shades in these smartly-cut garments; they have luxurious collars of fox, wolf and squirrel furs and will grace any occasion on which you may choose to wear them.

In dress coats at the same price are brown, tan, black, the reds and other Autumn colors—suede, broadcloth and Veloria, trimmed with natural lynx, fox, wolf and squirrel furs—exceptionally good values, every one!

(Third Floor—Coulter's)

Kayser Marvelray Vests

95c each

Made of fine quality rayon; bodice style, in pink, peach, shrimp and Nile; sizes 36 to 42, these vests are much underpriced at, each **95c**

Bloomers may be had to match, in the popular Marvel-fit style; sizes 5, 6 and 7, **\$1.95**

A set will make a good gift to any woman for Christmas!

Magnetism, Radium Energy, Heat. Three Great Healing Elements are Combined in the Perfectcoil.

Perfectcoil Provides

Charm Confidence Character

Charm

Such charm, as shall manifest through increased vitality and energy; that shall radiate the well-being belonging to steady nerves, perfect circulation and increased elimination—thus spelling Health.

Confidence

Such confidence as shall enable you to meet the issues of life calmly; to decide your problems justly and easily; that will mark you as abounding in that priceless possession that we term—Health.

Character

Such character as shall stand as a beacon for family and friends; a guiding light that spells success, strength, security in matters mental, material—and all together promoting—Health.

Health Insurance

With the use of the Perfectcoil, and its "three in one" (radium emanation, magnetism and heat) one is assured of health insurance than which there is no greater asset.

We back our statements with over twenty-five years of laboratory experience and research work, and if you will give us fifteen minutes we will prove to you that there is no necessity for you having any bodily condition that is not of the highest grade. Health is wealth—why not have it?

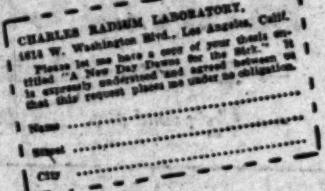

It is yours for the asking—come in and let us show you!

CHOICE TERRITORY open to capable representatives.

BARRING ALIEN LABOR OPPOSED

Contractors Advise Against Proposition 6-A

Declare Ban Would Add to Building Costs

Chamber of Commerce Also Urges "No" Vote

Pointing out to property owners and taxpayers that the approval by the Los Angeles city voters at next Tuesday's general election of Proposition 6-A, barring alien labor from municipal work, will result in increased costs of public improvements and consequently higher assessments, the Southern California Chapter of the Associated General Contractors of America yesterday issued a statement urging a "No" vote on this proposition.

The Chamber of Commerce, through its board of directors, also has recommended a "No" vote on this measure.

The Associated General Contractors, in its statement, said:

INCREASED COSTS

"Although contractors, generally, use American labor where practical, and in such amounts as the local labor market will bear, the employment of only American citizens on public construction in the city of Los Angeles will not only lead to higher construction costs, but will also strip the city of the services of the most capable and experienced taxpayers to pay more for public construction than private owners would have to pay for similar construction work."

In opposing Amendment 6-A which is one of the charter amendments to be voted upon at the coming election, the contractors are not considering their own interests as much as that of the city. The public have to foot the bills on all public construction, and it is to the interest of the taxpayer that Proposition 6-A should not receive the support of Los Angeles citizens.

IMPOSES HANDBRACK

"Being forced to employ only American labor would unduly increase construction costs—the contractors say would impose a handicap in executing street and sewer work, efficiently within the time specified by the city on such construction work."

"Alien labor is not employed to any great extent in Los Angeles except on sewer construction and there only on street work, the contractors have been unable to obtain American citizens to perform. On street work, it is found a small percentage of the laborers by means of their skill and experience that Americans are confined to a class of work that Americans shun."

Lecturer Talks Against Tax on Oleomargarine

Warren J. O'Brien spoke yesterday before some 800 women, members of the Los Angeles Civic Club, at the Morocco Theater, bringing before them a number of arguments against Proposition No. 3, the law taxing oleomargarine 2 cents a pound. Oleomargarine is to be a possible economic substitute for butter by many who cannot afford butter.

If protection of industry is the point of view, and they shouldn't oleomargarine be protected? It is an industry operating many plants in this State, employing hundreds of people, and in the buying of the ingredients, including the use of coconut and peanut oil, local houses are patronized, he declared. Furthermore, he states, the industry pays \$60,000 a year into the State Treasury in license fees.

Accused Writer of Extortion Letter Pleads

Warren Cleveland Marshall, who served fifteen months in Leavenworth Federal prison for sending an extortion letter to Marco Hellman, yesterday pleaded guilty before United States District Judge McCormick to a second and similar offense against the Los Angeles banker. He will be sentenced next Monday.

Marshall sent the letter to Judge McCormick, he said, to Judge McCormick he sent the letter "without cause, thinking it might be an easy way to make a few dollars." He had been out of prison only a few months when he mailed his second letter to Hellman.

ALUMNI SEEK FUND

Endowment to Enlarge Harvard Law School Planned

Two hundred and fifty alumni of Harvard Law School living in the Southwest yesterday entered in a two weeks' drive to raise the local quota for an endowment fund for the enlargement of the activities of the school to meet the needs of the present investigation and study of pressing governmental problems of the day.

The campaign, which is being managed by the local committee with headquarters in New York, has as its object the raising of an endowment fund of \$5,000,000, of which \$3,000,000 is needed to establish the desired departments for research, while the remaining \$2,000,000 will be used to augment the present facilities of the Harvard Law School.

Harvard alumni in charge of the drive in Los Angeles are: Roy Repby, chairman, Hugh Gordon, E. B. Cunningham, Thatchar J. Kemp, L. L. Larabee, W. C. Mathes, J. C. Macfarland, Gurney E. Newlin, J. W. O'Gorman, John P. O'Farrell, Albert Parker, George W. Prince, W. M. Stoddard, F. W. Williamson, E. F. Woodard.

TRIO FILES SUITS IN ASSERTED SHOOTING

Declaring they were shot in the backs by a load of buckshot while crossing a vacant lot in Culver City, on Sept. 22, 1931, Walter H. Fisher, John W. House and Fred Baker yesterday filed suits for damages totaling \$22,500 against Walter H. Lowe of Culver City. According to the suit, the shot was fired by Fred T. Carter, who is said to be in the employ of Lowe. Fisher sued for \$12,500, House for \$8,000 and Baker for \$5,000. All the complaints were filed by Attorneys Varga, Cooney and Da-

RUSSIAN TO DIRECT RUSSIAN

Buchowetzki to Make "Anna Karenina" for M-G-M; Percy Marmont Tired of Doing Tear-Teasers; "Noah's Ark" Will Be Modern Story

BY GRACE KINGSLY

What more felicitous professional happening can you imagine than that a Russian director should direct a Russian story for the screen? That is just what is going to happen out of the studio of Metro-Goldwyn-Mayer studios.

"Anna Karenina," Count Leo Tolstoi's international novel of contemporary life, is to be directed by Dimitri Buchowetzki, who of course is a Russian as vodka, Irving G. Thalberg made the announcement yesterday.

The assignment of Buchowetzki to the direction of this important story follows the completion of his direction of Mae Murray in "Valencia." The locale of "Anna Karenina" is Russia in the middle of the nineteenth century.

Buchowetzki is to follow this picture with a Viennese story of which he is himself the author.

Florence Vidor's New One

It looks as though Florence Vidor will have to eat her Thanksgiving dinner in New York after all. She is spending a short vacation here, but already hears the clarion call of Hollywood, to which she will return east within a fortnight to begin a new picture.

The new story will be "Face to Face," but no further details concerning it are forthcoming at this time.

Percy Marmont Leaves Paramount

Percy Marmont has severed his connection with Paramount, according to word just received. Hereafter Marmont, who is one of the screen's greatest actors, will joust alone in pictures in the free-lance field.

The star formerly was a stage actor in England, where he played mostly comedy. Curiously enough, his first great screen hit was as the father of a star—Greta Garbo in "What Comes in 'W. W. II' Comes."

He is still deep in his heart, however, and wants to play a comedy.

"Really I'm quite a merry fellow," he said the other day. "I shall never play another part if you know, he smiles even while the lungs wring—if I can help it."

Pressed, however, Marmont admitted that in case Paramount made "Depping's Bond and Co.," to which he is the star of, he would go to some other firm, he would like very much to play the role of a hero.

Prior to his securing the rights to the novel, Inspiration Pictures planned to bid for the role.

It was understood that J. Roy Hunt wanted Marmont and Gardner James for the roles of father and son, respectively.

One of the finest characterizations of the year was that of the house of Hutchinson's "The Clean Heart."

While with Paramount he made "The Man Trap," "Aloma of the South Seas," "Love Jim," "The Light that Never Went Out," "The Story of Men."

It is said that it was Marmont's performance in "The Street of Forgotten Men," under direction of George S. Kaufman, that led the Lasky people to secure the picture rights to "Borrel and Son."

Col. Tim McCoy Shifts

Darn it all, when a man has got a brand-new shiny contract, and a story that just suits him, it does knock everything all to Halifax when his plans have to be changed. However, if you are a soldier of fortune like Col. Tim McCoy, maybe you will take it all, as he is doing, like a good sport.

Here's the how of it: Col. Tim was all set to go on the "California" campaign, to the islands of the Philippines, to San Diego, in which the marines at San Diego were to take part, when along comes Uncle Sam and hires the marines out to protect the mail trains of course, of course takes the picture.

Wherefore Metro-Goldwyn-Mayer had decided to let Col. Tim play in a picture of colonial days, in which the British had a garrison office in the days of Gen. Bradock and the French and Indian War. Believe it or not, Col. Tim will play a dandified, be-wigged and powdered rôle, and when he has given the chance to be the Col. Tim we already know in "War Paint."

Col. La Roque for "Reassurance" is a small bird who is long enough to let in the secret that it is quite possible that Col. La Roque may play the leading male role in Tolstoy's "Resurrection," which Edwin Carew will direct. The rôle of "Prince Charming," which La Roque would be, is to be the one to wear the most beautiful uniforms.

As everybody knows, Dolores del Rio will play the feminine lead.

Margaret Morris Loaned

Margaret Morris, Paramount star, has once again, almost literally, and entirely figuratively, you might say, climbed between the tenebrous heights of the "Magic Garden," to the "Rain" of George Cukor.

For the second time Paramount has yielded to the request of the great George Cukor, who is to direct "Rain," which Edwin Carew will play the stellar rôle in "The Magic Garden," a picture starring Dolores del Rio.

For the first time in his career, Cukor is to be directed by Charles King, assisted by Harry Shuter.

According to Producer Freed, the rôle of "Rain" is to be taken by the irreproachable Miss Thompson.

However, it is rumored that Ruth Seville is being considered for the Jeanne Eagels rôle. Lillian Tashman, screen star, also has been named for the rôle.

The rôle of the minister's wife is still vacant, though Eleanor Lawson is a likely candidate, it is said.

CAST AS HER BROTHER

Einer Hansen is playing the rôle of Pola Negri's youthful brother in the star's present Paramount production, "Barbed Wire." It is the Swedish actor's first appearance with Pola Negri.

133RD WEEK. Tues., 8:15 p.m. **Baritone of Royal Voice** ... **Marcel Salzin**

Tickets \$1, \$1.50, \$2 plus tax. **Baron Weyl** ... **720 S. Broadway and 8th Street**
